

PRAED FOUNDATION
SAN FRANCISCO DEPARTMENT OF PUBLIC HEALTH

Present the sixth annual

CANS CONFERENCE

PRODUCING OUTCOMES, ENCOURAGING BEST PRACTICES AND BUILDING FAMILIES

April 18th through April 20th , 2010

Hotel Nikko

San Francisco, California

Among the topics covered:

- Total Clinical Outcomes Management: A framework for managing services for Programs, Agencies, and Systems
- Training and Implementation Issues, including a hands on demonstration of web-based training and certification approaches.
- Decision support Applications for intensity of services and level of care
- Measuring and Managing Outcomes: The role of structured assessment in performance contracting quality improvement applications
- System Management Strategies including geomapping approaches to support service matching
- Strategies for incorporating youth and families in the planning process
- Using the CANS to support Trauma-Informed care
- Adults Needs and Strengths (ANSA)

Presentations will include representatives from applications across North America. Several international presentations will be included.

On Sunday April 18th an open CANS training will be provided from 1pm to 5pm so that conference attendees not familiar with the approach of these tools can learn how they are completed. Certification will be provided to trainees. Other pre-conference workshops will be offered on service planning and Total Clinical Outcomes Management. A panel of mature implementation will be provided for jurisdictions and agencies considering adopting the CANS.

Become a certified trainer. Participate in the full conference beginning with the pre-conference training and become a Certified CANS Trainer.

Specific presentations will be provided for the ANSA, versions of the CANS, the CSPI and CAT. In addition, presentations will provide strategies implementing and utilizing CANS tools in a variety of settings.

CEUs will be provided. The conference meeting will be held at the Hotel Nikko in San Francisco, California and is located within walking distance of many famous sites and entertainment venues.
